

MEMORANDUM FOR THE RECORD

19 August 1977

SUBJECT : Revised Executive Order 11905

1. The following concerning the provision of services of common concern need some clarification:

a. Page 14, Para IX - Under Responsibilities of the DCI "promote the development and maintenance of services of common concern by designated foreign intelligence organizations on behalf of the intelligence community."

b. Page 23, Para 10 - Under Responsibilities and Duties of the Intelligence Community "participate as appropriate in the provision of services of common concern as directed by the Director of Central Intelligence."

c. Page 25, Para 7. Under Duties and Responsibilities of the Central Intelligence Agency "conduct for the intelligence community services of common concern as directed by the National Security Council."

2. It appears that Page 25, para 7 should state "as directed by the DCI" if it is to be consistent with the first two paragraphs concerning services of common concern.

3. While para 10 of page 23 states that "senior officials of the intelligence community should participate in the provisions of services of common concern as directed by the DCI" there is no mention of the provision of services of common concern any place else in the Executive Order where specific responsibilities of agencies of the community are covered.
